## CALL FOR ROE 8 TO BE REMOVED FROM MRS

11 March 2017 - Labor won the WA state election and Mark McGowan forms government. His first act is to halt Roe 8 and the Perth Freight Link after thousands of people demonstrated against the road and hundreds of people were arrested protecting the important bush and wetlands from the bulldozing.

October 2018 and we are still waiting for Roe 8 to be removed from the Metropolitan Regional Scheme (MRS) and the land placed back into the Beeliar Regional Park and protected under the CALM Act as a Class A Regional Reserve.

It is way past time that the government made this happen after 18 months of promises.

Please ring, write, email or visit Cabinet Ministers and MPs and ask why haven't they kept this promise. Call media and radio talk shows and ask them to question the government on this.
